1. [] Comment. Wittstock airfield is occupied by the Northern P'tr Corps Hq and one fighter regiment equipped with 30 to 35 MiG-15s. Air activity was temporarily very weak because of unfavorable weather; otherwise, no changes were observed in air activity when compared with previous reports. []

25X1

2. [] Comment. The radar set observed probably is a Token-type set. Previously, 1 Knifcrest-type set, 1 Fishnet-type set and 1 Dumbo-type set were observed at the field.

3. [] Comment. It is unknown where the train came from. The AA gun emplacement in the southwestern section of the field was previously reported.
